REVIVE YOUR COMPRESSOR, SAVE MONEY AND BOOST PERFORMANCE

J & E Hall is the screw compressor specialist. We have an established history of developing compressor technology and expertise is clear when it comes to remanufactured compressors.

Benefits

▶ Detailed strip and inspection report

▶ Test reports/certificates

▶ Fully overhauled
(using genuine OEM spares)

▶ 12 months warranty

▶ On-site motor rewind facility

▶ Industry know-how

▶ Fully resprayed to the original colour

Step by step process

1

Details recorded & photo's taken

2

Fully stripped down & inspected

3

Compressor goes through
wash tank

4

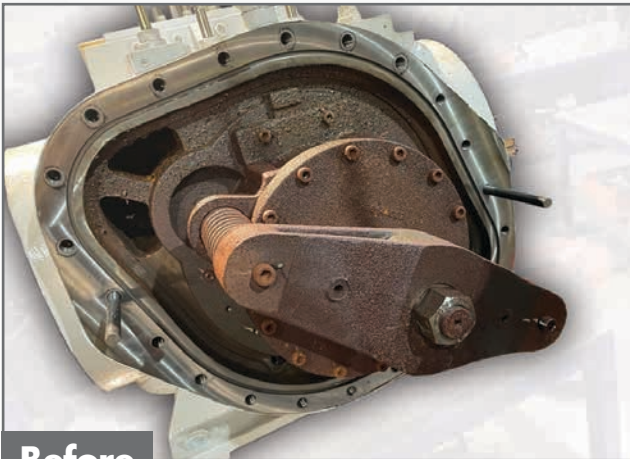

Motors are fully Baker tested
& rewind/replaced

**OVERHAUL
ALL MAKES
& MODELS**

Remanufacturing Process

Think of it as a comprehensive health check up for your machine, but it doesn't stop there. Each unit undergoes rigorous testing to ensure it meets or even exceeds original performance standards.

The result? A compressor that's as good as new but at a fraction of the cost. Remanufacturing isn't just cost effective, it's also environmentally conscious. By reusing materials, we reduce waste and lower the carbon footprint. So, you can have efficiency, reliability and sustainability all in one package.

Before

After

5

Components inspected & replaced with genuine OEM spares

6

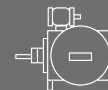

Critical assembly stages are verified & signed off

7

Compressor assembled, pressure tested & painted to customer requirements

8

Compressor labelled & packaged ready for dispatch

REMANUFACTURED COMPRESSORS

J & E Hall specialise in industrial screw compressor overhaul as well as reciprocating machines

- ▶ **Hall/HallScrew**
- ▶ **Bitzer Screw**
- ▶ **York**
- ▶ **Mycom**
- ▶ **Howden**
- ▶ **Gram**
- ▶ **Daikin/McQuay**
- ▶ **Grasso**
- ▶ **Trane Screw**
- ▶ **Sabroe**

On site services

- ▶ J & E Hall understand the pressures of a compressor breakdown and can work effectively and efficiently on site to ensure a compressor can be remanufactured
- ▶ We carry out a site survey prior to work commencing to ensure feasibility, ensuring minimal disruption
- ▶ Our highly experienced engineers undertake on site rebuilds and work closely with lift, shift and laser alignment teams to avoid loss of time
