Refrigeration & Air Conditioning Service & Installations

TRUSTED NATIONWIDE SERVICE, EVERYTIME

sales.services@jehall.co.uk

J&E Hall
International
a member of **DAIKIN** group

Whether it's a single site or a nationwide operation, we deliver consistent, expert service support wherever you need us.

SERVICE EXPERTISE

From air conditioning systems to large scale industrial refrigeration plant, we've got you covered.

Our nationwide service capability ensures fast, reliable response wherever you are:

- ▶ Planned preventative maintenance programmes
- ▶ Multi brand expertise across all systems
- ▶ Fully qualified, highly experienced engineers
- ▶ Dedicated call out process for rapid response

All delivered from 10 strategically located UK service centres, giving true national coverage.

- ▶ HFC and natural refrigerant maintenance & optimisation
- ▶ Natural refrigerant projects
- ▶ HFC phase-out planning

Stay compliant with evolving legislation

Smarter Service

Our digital job management platform enables faster, more reliable refrigeration service while reducing administration for our customers.

It allows our engineers to receive jobs instantly, capture site information in real time, and complete detailed electronic service reports.

- ▶ Real-time communication and job status visibility
- ▶ Full traceability of all work carried
- ▶ Secure access to service history, compliance documents, and maintenance records
- ▶ Better maintenance planning through clear recommendations and data insights

Individual customer portals allow instant access to:

-  Asset registers
-  Certification & compliance documents
-  Reports and updates
-  Service history

POWERED BY GROUP STRENGTH

As a member of the Daikin Group, we offer local delivery with global capability:

- ▶ Unrivalled group technical knowledge
- ▶ Access to specialist products and solutions
- ▶ In-house and on-site compressor remanufacturing capability
- ▶ Centrally located spares warehouse

QUALITY, SAFETY & SKILLS YOU CAN TRUST

- ▶ Fully qualified, continuously trained engineers
- ▶ Strong focus on HSQE (Health, Safety, Quality & Environment)
- ▶ Industry-leading standards across every project and service visit

A 3D isometric diagram of a food processing plant layout. The diagram shows various storage and production areas with temperature labels in green circles. The labels and their corresponding areas are:

- 25°C FREEZER STORAGE**: Located in the top left corner.
- +2°C CHILLED STORAGE**: Located in the top left corner, adjacent to the freezer storage.
- 10°C PACKING AREA**: Located on the left side, near the entrance.
- 10°C BLAST CHILLER**: Located in the bottom left corner.
- 8°C to 10°C PRODUCTION AREA**: Located in the bottom center.
- 4°C CHILLED GOODS**: Located in the bottom right corner.
- CENTRAL PLANT ROOM**: Located in the top center.
- 35°C BLAST FREEZER**: Located in the top right corner.
- 10°C SPIRAL CHILLER**: Located in the middle right area.
- 2°C RAW GOODS STORAGE**: Located on the right side.

The diagram also shows a parking area with several cars and a loading dock with a truck. The plant is situated on a plot of land with some trees and a road.
