

## WEEE COMPLIANCE OCT 2020

J & E Hall refrigeration products, which are in scope of the EU WEEE Directive, are labelled with a crossed-out "wheelie-bin" symbol as required by this directive.

This means that electrical and electronic products shall not be mixed with unsorted household waste.

Do not try to dismantle the system yourself: the dismantling of the refrigeration system, treatment of the refrigerant, oil and of other parts must be done by a qualified installer in accordance with local and national legislation.

Refrigeration equipment must be treated at a specialised treatment facility for re-use, recycling, and recovery. The correct disposal of your end-of-life equipment will help prevent potential negative consequences for the environment and human health. Please contact the J & E Hall for more information.
